QA Bug Audit Report: SauceDemo (`error_user`)

This document outlines all defects identified during quality assurance testing on the **SauceDemo** application specifically for the `error_user` account profile.

BUG-01: [Products] Add to cart buttons do not respond for specific products

Attribute	Details
Bug ID	BUG-01
Module / Feature	Inventory / Products Page
Severity	High
Priority	High
Environment	Web - Chrome, Windows, SauceDemo Web...

Description

The "Add to cart" buttons for specific products (*Sauce Labs Bolt T-Shirt*, *Sauce Labs Fleece Jacket*, and *Test.allTheThings() T-Shirt (Red)*) are completely unresponsive when clicked. The cart badge does not increment, and the button label does not change to "Remove".

Preconditions

1. User is logged in as `error_user`.

Steps to Reproduce

1. Open the SauceDemo website.
2. Log in with username `error_user` and password `secret_sauce`.
3. Click "Add to cart" on *Sauce Labs Bolt T-Shirt*, *Sauce Labs Fleece Jacket*, or *Test.allTheThings() T-Shirt (Red)*.

4. Check the cart badge icon at the top right.

Expected vs. Actual Results

Expected Result	Actual Result
Product is added to the shopping cart.	The "Add to cart" button does not respond to clicks.
The button label changes from "Add to cart" to "Remove".	The button label remains "Add to cart".
The shopping cart counter increments accordingly.	The item is not added to the cart, and the cart badge remains unchanged.

BUG-02: [Products] Remove buttons do not respond on the main Products page

Attribute	Details
Bug ID	BUG-02
Module / Feature	Inventory / Products Page
Severity	High
Priority	High
Environment	Web - Chrome, Windows, SauceDemo Web...

Description

When clicking the "Remove" button for an item previously added to the cart directly from the main Products page, the system fails to process the removal.

Preconditions

1. User is logged in as `error_user`.
2. Items are already added to the cart (e.g., *Sauce Labs Backpack*).

Steps to Reproduce

1. Open the SauceDemo website.
2. Log in with username `error_user` and password `secret_sauce`.
3. Click "Add to cart" on *Sauce Labs Backpack*.
4. Click the "Remove" button on the same product card on the Products page.

Expected vs. Actual Results

Expected Result	Actual Result
The item is removed from the shopping cart.	The "Remove" button does not respond to user interactions.
The button changes back to "Add to cart".	The item remains in the cart, and the button label stays as "Remove".
The cart badge counter decrements.	No changes occur on the cart badge.

BUG-03: [Product Details] Remove button fails to work inside Product Details page

Attribute	Details
Bug ID	BUG-03
Module / Feature	Product Details Page
Severity	Medium
Priority	Medium
Environment	Web - Chrome, Windows, SauceDemo Web...

Description

Attempting to remove an item from inside its Product Details page using the "Remove" button fails to update the cart state.

Preconditions

1. User is logged in as `error_user`.
2. An item is added to the cart.

Steps to Reproduce

1. Log in with username `error_user` and password `secret_sauce`.
2. Add *Sauce Labs Backpack* to the cart.
3. Click on the title of *Sauce Labs Backpack* to open its details page.
4. Click the "Remove" button inside the details page.

Expected vs. Actual Results

Expected Result	Actual Result
Item is removed from the cart, and the button label changes to "Add to cart".	Clicking "Remove" does not alter the cart state or button label.

BUG-04: [Products] Product sorting triggers an error popup and intermittent failure

Attribute	Details
Bug ID	BUG-04
Module / Feature	Inventory Sorting
Severity	High
Priority	High
Environment	Web - Chrome, Windows, SauceDemo Web...

Description

Changing sort filters (such as switching between Name A-Z, Z-A, or Price filters) fails intermittently and triggers an error popup: *"Sorting is broken! This error has been reported to Backtrace."*

Preconditions

1. User is logged in as `error_user`.

Steps to Reproduce

1. Log in with username `error_user` and password `secret_sauce`.
2. Click on the product sorting dropdown.
3. Alternate between different sort options repeatedly.

Expected vs. Actual Results

Expected Result	Actual Result
Catalog re-orders smoothly without system exceptions or popup errors.	Sorting breaks and throws an explicit error alert stating "Sorting is broken!".

BUG-05: [Sidebar] "All Items" link logs the user out with an error message

Attribute	Details
Bug ID	BUG-05
Module / Feature	Navigation Sidebar
Severity	High
Priority	High
Environment	Web - Chrome, Windows, SauceDemo Web...

Description

Clicking the "All Items" link from the sidebar navigation menu forcibly logs out the user and redirects them to the login page displaying an authorization error.

Preconditions

1. User is logged in as `error_user`.

Steps to Reproduce

1. Open the sidebar navigation menu (3 horizontal lines).
2. Click on the "All Items" link.

Expected vs. Actual Results

Expected Result	Actual Result
User stays on `/inventory.html` or is navigated back to the catalog without session disruption.	User is redirected to the login page with an error: *"Epic sadface: You can only access '/inventory.html' when you are logged in."*

BUG-06: [Sidebar] "Reset App State" button fails to clear cart or restore defaults

Attribute	Details
Bug ID	BUG-06
Module / Feature	Navigation Sidebar / System State
Severity	Medium
Priority	Medium
Environment	Web - Chrome, Windows, SauceDemo Web...

Description

Clicking "Reset App State" inside the sidebar menu does not clear added items from the shopping cart or reset UI states.

Preconditions

1. User is logged in as `error_user` with items in the cart.

Steps to Reproduce

1. Add items to the cart.

2. Open the sidebar navigation menu.
3. Click "Reset App State".

Expected vs. Actual Results

Expected Result	Actual Result
Cart badge is cleared, and all product buttons revert to "Add to cart".	Action is unresponsive; cart contents and app state remain unchanged.

BUG-07: [Checkout] System clears Last Name input and blocks progression

Attribute	Details
Bug ID	BUG-07
Module / Feature	Checkout Step One (/checkout-step-one.ht...
Severity	High
Priority	High
Environment	Web - Chrome, Windows, SauceDemo Web...

Description

In Checkout Step One, entering or selecting a Last Name value results in the field being wiped/overwritten upon clicking "Continue", triggering an unnecessary *"Error: Last Name is required"* message.

Preconditions

1. User is logged in as `error_user` and is on `/checkout-step-one.html`.

Steps to Reproduce

1. Enter First Name and Postal Code.
2. Type or select a Last Name (e.g., "Osama").
3. Click "Continue".

Expected vs. Actual Results

Expected Result	Actual Result
System accepts Last Name data and navigates to `/checkout-step-two.html`.	Last Name field is cleared, and validation error *"Error: Last Name is required"* is displayed.

BUG-08: [Checkout Overview] "Finish" button fails to complete the order

Attribute	Details
Bug ID	BUG-08
Module / Feature	Checkout Step Two (/checkout-step-two.ht...
Severity	High
Priority	High
Environment	Web - Chrome, Windows, SauceDemo Web...

Description

On the Checkout Overview page (`/checkout-step-two.html`), clicking the "Finish" button is unresponsive and fails to finalize the transaction or navigate to the order completion page.

Preconditions

1. User is logged in as `error_user` and on Checkout Overview.

Steps to Reproduce

1. Proceed through checkout to `/checkout-step-two.html`.
2. Click the "Finish" button.

Expected vs. Actual Results

Expected Result	Actual Result
User is navigated to `/checkout-complete.html` displaying the order confirmation message.	The button does not respond, and the user remains stuck on the overview page.
